Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-12 and 21-24, drawn to a method and apparatus for measuring an optical component (optical filter) (B_{sp}/AB_{br}), classified in class 356, subclass 239.2.
 - II. Claims 13-20, drawn to an optical filter measurement holding fixture (B_{sp}), classified in class 356, subclass 244.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because claim 1 (AB_{br}) is an evidence claim which indicates that the combination (B_{sp}/AB_{br}) does not rely upon the specific details of the subcombination (B_{sp}) for patentability (see M.P.E.P 806.05(c)(III)). The subcombination has separate utility such as used in an interferometer or flow meter. If claim 1 (AB_{br}) is subsequently found to be unallowable, the subcombination will be rejoined.

Art Unit: 2877

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoa Q. Pham whose telephone number is (703) 308-4808. The examiner can normally be reached on 6:30 AM to 5 PM, Monday through Thursday.
